## DETAILED ACTION

### ***Allowable Subject Matter***

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 11-20 are considered allowable for reasons of record set forth in the Office action of October 4, 2007. The correction to the typo of claim 11 is acceptable.

Regarding independent claim 1, the prior art does not teach or suggest a method for converting a desired lens design to a geometry of a contact lens to be produced by providing a lens design of a contact lens having a central axis, an anterior surface and an opposite posterior surface, projecting a predetermined number of points within a predetermined surface tolerance onto a surface of the lens design along each of a number of evenly-spaced semi-diameter spokes, each spoke radiating outwardly from the central axis, for each of the spokes, generating a semi-meridian which is continuous in first derivative and includes a series of arcs and optionally straight lines, where each arc is defined by fitting at least three consecutive points into a spherical mathematical function within a specified concentricity tolerance, where each of the straight lines is obtained by connecting at least three consecutive points, and generating a data file containing information about the geometry of the lens in a form that is interpretable by a computer-controlled manufacturing device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
